delonghi brand models. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Michael 4.0 out of 5 stars Only thing that I didnt like was that it wasnt long enough, hence only 4 stars. The air conditioner sits on the floor and the house has high windows. I had to put the air conditioner on a platform in order to use the hose. If it was 3 foot longer it would be great.

After looking around found this for a great price as well meets all my expectations. Great product! Aber dem ist nicht so. Ich habe ein ganz normales Rohr bekommen. Das gleiche was ich schon an der Klima habe. Und es lasst sich nicht mit einander verbinden. Habe extra langer warten müssen da es aus Italien kam. War zuerst ziemlich sauer. Aber da ich ja etwas handwerklich bin hatte ich eine Losung gefunden wie ich die beiden Rohre verbinde. Jetzt funktioniert es Habe es deshalb behalten, da es besser vom Material ist als die angebotenen Papierrohre. Leider schnell die Halterung abgebrochen. Darum zuruck geschickt. Ich war persönlich bei Ihnen im Laden und muss sagen super nette Beratung. Kann man auf jeden Fall empfehlen. Arrivato velocemente e ben imballato. Spedizione velocissima. Please try again. Please try again. Please adjust the filters and try again. Try adjusting your filters. In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading. Please try your search again later. The De'Longhi Pinguino PAC C100E 3 in 1 Portable Air Conditioner will keep you cool, dehumidify and recirculate air with a 3 speed fan. And because it's portable you place it wherever and whenever you need it most. Spend the day working in your small office. We've got you covered. Ready for bed The air conditioner can be wheeled to your bedroom and keep you comfortable all night long. Features environmentally safe refrigerant gas, easy to use digital controls with LED display and no drip technology so you never have to empty a bucket. Live in comfort all year long. There's no mess or water tanks for you to empty. And because it's portable you place it wherever and whenever you need it most. Spend the day working in your small office. We've got you covered. Ready for bed The air conditioner can be wheeled to your bedroom and keep you comfortable all night long.

Features environmentally safe refrigerant gas, easy to use digital controls with LED display and no drip technology so you never have to empty a bucket. Live in comfort all year long. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Josh Piper 3.0 out of 5 stars I dont live in a humid part of the country Seattle and I have to drain the tank at least once every day, usually more. That wouldnt be terrible if the tank were convenient to drain, but its down at the bottom of the machine so you have to use a sheet pan and then delicately transfer the water to something else. Three stars until Amazon fixes the description or buys me a condensate pump. wishful thinking. I notice DeLonghi does not make the same claim on their website. One caster wheel was busted upon arrival; DeLonghi customer service was very good and replacement is on the way. Everything will be working fine and then the hose will disconnect from the back it is connected via an extremely crappy interface. I have had it disconnect in the middle of the night just from the slight jolt of the compressor going on and I wake up because its really hot in the room because when the hose comes off the back, it emits hot air into the room. If there was a baby or pet closed in the room when this happened they could really suffer. Its a real shame because other than that, I really like this unit it does a good job cooling. I dont know why DeLonghi did not do a better job with connecting the hose to the back of the unit. They normally put more thought into their products. This means it still has to be very close to a window or vent. Quick setup also. And when winter comes Ill roll it away until its needed again next spring.

Update May 2015 Its up and running again with no problems whatsoever. Update August 2015 It started to leak water. Had to put an aluminum pan under it. Update October 2016 Didnt have it level

before. Leveled it and it worked fine for the rest of the summer without leaking. Update April 2017 Rolled it out, checked the level and hooked it up. Its working great! I bought the DeLonghi 100E from a store, brought it home, plugged it in. Ah, bliss! Beautifully cool air and a good night of rest. And not just a little, oh no I later put it up on blocks in a large tub, so I could measure the amount of water that it put out, and it leaked over 3.5 gallons in the same time period. Water ran out the side vents when I tilted it. The carpet was a swamp I ran out of towels soaking it up, several books were ruined, all in all not a good morning. So I called them, and the man who answered the phone was indeed friendly, and seemed to know what he was talking about. He told me to take a picture of my receipt and email it to the company, they would get back to me soon. My name is XXXXX, and Ill be more than glad to help you today. I have set you up for service at YYYYY. Please take or ship the unit there for repair. Please include your name, address, phone number and a brief description of the problem with the unit. They will repair it and send it back to you. Its not even a DeLonghispecific store. I looked it up, and its a holeinthewall repair shop that appears to do mostly vacuums. Are you freaking kidding me 374 miles round trip, and then I would have to go back to get it when the repairs are done. This unit is going back to the store I bought it from, and Im buying an air conditioner from a different manufacturer.
